BODGER'S UNRIVALLED FLOWER SEEDS

We take pleasure in presenting to our customers this season an extensive price list, covering Flower Seeds for florist and general use.

All of the old favorites are included, as well as novelties, and this year we have added various sorts of Flower Seeds not previously grown in the United States, to accommodate those of our customers who wish to entrust us with a general order.

"GROWING OUR OWN"

Our extensive acreage, concentrated in one locality, under our direct supervision, gives us an opportunity for study and comparison which we believe unrivalled in the world. We have thus been enabled not only to produce valuable novelties, but also to choose the best among standard varieties and bring them to a high degree of perfection.

"THERE'S A GOOD FUTURE AHEAD" FOR ZINNIAS

We are vitally interested in the development of the Zinnia and the intensive work we have done in this connection during the past ten years has been largely responsible for bringing this old fashioned flower into universal favor. We have given the trade several new types and have succeeded in developing many desirable shades among them. We are now working on several more "Leads" which may result in our offering another distinct type which may even surpass the Dahlia Flowered type.

"WE ARE KEEPING UP-TO-DATE"

We wish to inform our many friends and customers in the United States that we have today a large planting of the best varieties of Narcissus, including a considerable number of King Alfreds and Paperwhites. It is our intention to offer these for the season of 1926. We have also a large planting of various kinds of bulbus Iris, including Tingitana, Imperator, also both Dutch and Spanish; as well as Freesias, Amaryllis and other bulbs which do exceptionally well on our best seed-growing lands. If you are interested in bulbs we ask you kindly to communicate with us from time to time.

We take this opportunity to thank our many friends for their liberal patronage during the past season. We earnestly hope that the quality of our seed and the prompt service which we are endeavoring to extend to all will warrant a continuance of this support.

ASTERS

We have under cultivation a large tract of land of an alluvial and peat composition which is sub-irrigated from mountain springs.

We are able to grow Asters to perfection with no trouble from the diseases common to this plant. We have no overhead moisture from the time the fields are planted to the time the seed is harvested, and our even climate, together with our work in reselecting, is enabling us to improve our strains in Asters very materially as the seasons advance.

Seed harvested under these conditions is of highest germination and more disease resisting.

NEW ASTERS OF OUR OWN PRODUCTION

Beauty Type

It has been a great pleasure to us to note the popularity which our Beauty Asters have attained with florists as cut flowers, and also with those who wish to send their Asters a long distance. The Late Beauty, White has been exceedingly good this year and is proving to be one of the best white Asters on the market today. Unfortunately our Early White Beauty was not so free from laterals as the Late White Beauty, but we expect to improve this during the coming season. We had similar trouble with our Late Beauty Crimson but we have succeeded in bringing this back to the long stemmed type and we are offering it in limited quantities for 1924 delivery.

LATE BEAUTY TYPE

Plants about 2 to 3 feet high, of branching habit, commencing to bloom in early September and lasting until destroyed by frost. Flowers large, borne on long and stout stems, from 18 to 24 inches. This applies to all of the Beauty Class, making them most desirable for cut flowers.

ASTERS—Continued

Late Beauty Type (Continued)

	Per oz.	Per ¼ lb.	Per lb.
.....Azure Fairy, pleasing light blue75	2.50	8.00

.....White Beauty, Giant white....	.75	2.50	8.00
.....Finest Mixed75	2.50	8.00

EARLY BEAUTY TYPE

This type has all of the characteristics of the Late Beauty Type, and is valuable for locations where the season is too late to flower the late type before frost, and for early forcing.

We wish to emphasize however that this is not an Early Aster as compared with Early Express or Queen of the Market, but earlier than the Late Beauty Type which is the latest of all Asters. Planted at the same time this type flowers with the Crego and American Branching.

.....Carmine Rose.....	1.00	3.50	12.00
.....Lavender	1.00	3.50	12.00
.....Purple	1.00	3.50	12.00

.....September Beauty, delicate flesh pink.....	1.00	3.50	12.00
.....White	1.00	3.50	12.00
.....Finest Mixed	1.00	3.50	12.00

A NOVELTY OF MERIT

California Giants

Since introducing the Beauty Type we have frequently received inquiries for a Crego with the robust habit of growth and length of stem that characterizes the Beauty Type. After several seasons of hybridizing and selection we now take pleasure in offering a type characterized by the Beauty's vigorous growth and the Crego or Ostrich Feather type of flower. A true non-lateral type.

We may also add, the flowers are much larger and more substantial than the Improved Crego, measuring 5 to 6 inches in diameter, and stand up well when shipped as cut flowers. Their immense size and beauty, as well as their long and sturdy stems make them very attractive when arranged in floral work, and they well deserve their name:

MISCELLANEOUS VARIETIES

Heart of France

Plants about 2 feet high, branching habit. Flowers medium size.

.....Rich Dark Red.....	2.50	8.00
-------------------------	------	------

Crimson Giant

Plants of upright growth, about 2½ feet tall. Flowers large, double, bright crimson and very showy. This is one of the most fascinating colors, viewed from a distance.

.....Crimson Giant	2.00	6.00
--------------------------	------	------

Lavender Gem

Plants about 18 inches tall, upright habit. Flowers Comet type, silvery white when young, changing to light lavender when fully expanded.

.....Lavender Gem	2.00	6.00
-------------------------	------	------

Moreton Pink

This is of the upright comet type. It is a beautiful shade of flesh or malmaison pink and is very desirable.

.....Moreton Pink	2.00	6.00
-------------------------	------	------

 We grow, on our own farms, more than two hundred acres of Asters under our own supervision.

Our business is growing—but “growing” is our
business.

May we not grow for you?

ZINNIAS

BODGER'S GIANT DAHLIA FLOWERED

In 1919 we offered for the first time a new type of Zinnia, the Dahlia Flowered, which we predicted would take precedence over the Grandiflora Type of Zinnia as did the Spencers over the Grandiflora type of Sweet Peas.

Today we have on file in our office many letters of commendation from all parts of the globe, showing the widespread popularity of this type of Zinnia and its remarkable versatility in adapting itself to varying conditions and climates. Comparatively young among florists' favorites, it is easily propagated and seems to be immune from the diseases which affect older types of flowers. Its very youth, however, renders it subject to mutations, and although we are making every effort to safeguard our customers' interests, by sending out only such named types as have proved themselves worthy, we are offering the separate colors with the understanding that there will be a certain percentage of variations until they become fixed stock.

We are pleased to advise that our cultures of the varieties listed in the past season have shown a marked improvement and we have more confidence in their coming true from our 1924 crop.

A Florist's Moneymaker

This type is proving a good forcer among the florists. Polar Bear is forced and used extensively as a bunching flower for Mothers' Day, while Exquisite, Old Rose, Golden State, Crimson Monarch and Canary Bird are specially recommended to force as desirable colors for florists for early Spring trade.

To assist in visualizing the true color, we have inserted, parenthetically, Ridgeway's Color Chart descriptions.

Bodger's Giant Dahlia Flowered

We offer all varieties as follows:

Per oz.	Per ¼ lb.	Per lb.
3.00	10.00	35.00

.....EXQUISITE—By far the most pleasing of our collection. Truly DAHLIA flowered as regards form and size. Color light rose with center a deep rose. (Tyrian Rose).

.....OLD ROSE—This is adequately described by its name, as it is of the real Old Rose Shade; it is large, and for charm and beauty we consider it ranks next to Exquisite.

.....ILLUMINATION—Similar to Exquisite, but a striking self color of deep rose. (Tyrian Rose).

ZINNIAS—Continued

Bodger's Giant Dahlia Flowered (Continued)

-GOLDEN STATE—A very rich orange yellow (Cadmium). Yellow in the bud, turning to an attractive orange when in full bloom.
-CRIMSON MONARCH—By far the largest and best of the red shades. Flowers often eight inches in diameter. Plants very vigorous. A marvelous production of extraordinary merit.
-GIANT ATTRACTION—A distinct shade of brick red (Spectrum Red) which carries its color well from the bud, and forms into an immense ball of color when in full bloom.
-SCARLET FLAME—A large, beautiful, bright scarlet, with a delightful blending of orange throughout the petal. This is not a bicolor.
-METEOR—A rich, glowing deep red (Spinel Red) and the darkest of all the red shades. Fine form, with good depth of petal. Very large and more floriferous than other reds.
-ORIOLE—We consider this the most beautiful of its class. It is an immense orange and gold bicolor, changing slightly as it ages, but at all times worthy of the beautiful bird for which it is named. Our cultures are limited, and we can offer Oriole in small quantities only this year.
-DREAM—A fine, deep lavender, turning to purple (Mallow Purple) a new, desirable shade in Zinnias.
-POLAR BEAR—A very large pure white, the best white yet seen in Zinnias. True Dahlia form.
-BUTTERCUP—An immense deep creamy yellow. A very desirable flower, which should be included in every collection.
-CANARY BIRD—A delicate shade of primrose—very large and holds its color well until out of bloom.

Per oz. Per $\frac{1}{4}$ lb. Per lb.

-SPECIAL MIXTURE—A well blended mixture containing all the above novelties.....**1.50 4.50 15.00**
-ALL COLORS MIXED—While this mixture may not contain such a variety of colors as the Special Mixture, its color range is very good; it has been thoroughly rogued in the field for type and size of flower.....**1.00 3.00 10.00**

ZINNIAS—Continued

PICOTEE TYPE

The flowers, which are not quite as large as the Double Giants, are very effective in appearance, as the edges of the petals are all well marked with a distinct color to the body of the flower, making them very attractive as bedders and cut flowers.

These will not reproduce more than 60% true.

	Per $\frac{1}{4}$ lb.	Per lb.
.....Golden Pheasant, — Gold ground tipped with maroon.....	3.00	10.00
.....All colors, mixed including new colors from white to scarlet.....	2.50	8.00

QUILLED TYPE

.....Victory Choice Mixed, — including several new colors; this variety has been greatly improved in size and range of color this year	2.50	8.00
.....Achievement, Mixed	2.50	8.00

GIANT MAMMOTH TYPE

.....Lemon Queen	2.50	8.00
.....Orange King	2.50	8.00
.....Orange Queen	2.50	8.00
.....Purity	2.50	8.00
.....Rose Queen	2.50	8.00

In presenting the above type we offer a rare collection of striking and desirable colors. We have overcome the objectionable feature of the old Giant type; that is, the conical shape, our new Giants having smaller centers and more loosely placed petals, while the size of the flower has been notably increased over the Giant Plenissima. The petals are decidedly imbricated and the flower from bud to full bloom presents a graceful appearance.

ORANGE KING is a striking shade and can be compared favorably with the color of the Calendula from which it takes its name.

LEMON QUEEN is of immense size and a color that is most pleasing. The petals are light canary on the upper and cerise on the lower side, the two shades blending as the flower develops, making a variety of lemon tints. It is also unique inasmuch as it carries a pleasant odor. This characteristic is not to be found in other Zinnias. In short, it is "delightfully different" and worth listing.

ZINNIAS—Continued

Giant Mammoth Type (Continued)

ORANGE QUEEN, while not so dark an orange as Orange King, is a very striking shade quite different from any orange offered by us before and quite indispensable for a complete collection.

PURITY, like the Polar Bear, Dahlia Flowered type, is a clean white. It has lost the greenish tint that has made white Zinnias unpopular in the past.

ROSE QUEEN: This flower opens first as bright rose with a deep rose red center and gradually develops into a warm deep rose when in full bloom. Unquestionably this is the most pleasing of the set for size and form as well as color and has been a favorite with all visitors in the past season.

DOUBLE GIANTS

(Improved Grandiflora Robusta)

Varieties starred are our own introduction.

Our business is growing—but “growing” is our
business. May we not grow for you?

Bodger's Unrivalled Seeds

STOCKS

We devote much time to our Stock cultures. The seed is gathered from plants selected to produce a large percentage of Doubles.

Large Flowering Dwarf Ten Week

This variety is valuable for early bedding.

.....Finest Mixed75	2.50	8.00

Mammoth Early Branching Nice

This variety is now recognized as the most valuable of all Stocks for cutting purposes and the most popular for general use.

If sown early, they come into flower as early as Dwarf Ten Week varieties; the flowers are larger, and the branching habit renders them invaluable for florists.

Should our foreign customers require other Flower Seeds not listed above, we are in a position to supply same at market value on receipt of order. We keep in close touch with all reliable growers, and personally inspect their crops.

 We are also in a position to book BEANS and VEGETABLE seeds for delivery after harvest 1924 at the prevailing market prices. If interested please submit list for quotations.

For ZINNIAS, see pages 14-18.

Bodger's Unrivalled Seeds

Our business is growing—but “growing” is our business. May we not grow for you?

CONTRACT FOR 1924 CROP

.....1924

Between JOHN BODGER & SONS CO., Los Angeles,
California

And.....

.....

JOHN BODGER & SONS CO. agree to plant sufficient land under normal conditions, ordinarily to produce the amount of seed named hereafter, at prices indicated, and will deliver the seed in merchantable condition at nearest terminal point in California as soon as practicable after harvest.

JOHN BODGER & SONS CO. will accept contracts only as long as the condition of the crops is favorable enough to justify their accepting same, but in event of short crops will fill pro rata only.

Bags or containers will be charged at market value.

TERMS: F.O.B. California terminal, flower and vegetable seeds, 60 days net or 2 per cent discount for cash within 30 days from date of invoice. Beans, sight draft against bill-of-lading. All overdue accounts subject to sight draft without further notice.

NON-WARRANTY. We exercise the greatest care in growing and harvesting our seeds, roguing our crops under personal supervision, to the best of our ability, true to name, and send out nothing but what we believe will give satisfaction. It must, however, be expressly understood that we warrant neither growth, description nor productiveness of any seeds we deliver, nor will we hold ourselves responsible for the crop raised from any of the seeds we grow.

If our goods are not accepted on these terms, we should be notified at once.

Our seeds have now been selling on their merits for the past thirty years, and by observing the steadily increasing demand we believe they have given general satisfaction; but should any variety not have been as represented, we hope our patrons will advise forthwith.
